I am writing you to ask you to PLEASE reconsider your order for Uber to cease and desist operations. Without a doubt, Uber is far superior to other taxi services in that it is CLEAN, fast, consistent, dependable, and affordable. For these reasons, Uber certainly has made our roads safer by giving people a desirable option for getting home safely.

Moreover, I hope you'll make a move for the safety of our City, and realize that SC NEEDS UBER!

Thank you.

Subject: Uber decision

I have contact both Govenor Haley and Rep. Sanford about this matter. And I have never in excess of 40 years as a voter and property owner contacted an elected official

The decision to shut down Uber in SC is wrong and outrageous. I feel that way even though living in Charleston, I have a car and would rarely if ever use the Uber service.

I did begin using the App in NYC after standing on the street for one hour on a Friday night trying to find an empty cab. I've used Uber several other time and love the experience.

Thank you,
Doug Groves

Come on!!! There are few companies as customer friendly and efficient as Uber. Probably the only feasible reason the Commission has done this is for political and personal gain among a select group of commissioners. Taxi companies and Unions don't like Uber and they contribute to politicians who promote their interests. This is the festering pariah in government, greed and power and a big paying position with the companies and causes they supported. The public pays these people to look out for their interests and to keep costs low across the board. Uber is doing that so support them and you support the people! Let Uber operate without hassle!
